Myanmar

Burma, also known as Myanmar, is still a secret and mysterious land. Burma is one of the most fascinating countries in Southeast Asia.

Myanmar is the largest country in Southeast Asia, bordered by India in the northwest, China in the northeast and Laos and Thailand in the east. This extraordinary country, both in terms of its culture and its reliefs, has many surprises in store for you. If you want to travel to Burma, there is something for everyone, from a cultural or sporting circuit

Although Burma has been opening its doors to travelers for some years, it has managed to maintain its profound authenticity. In the center of the country, discover a country rich in culture, history, religion and geography. In fact, you will discover the pagoda fields of Bagan, the unmissable city of Mandalay and the great royal cities of Mingun and Sagaing

...a country of innumerable wealth

The western part of the country is more reserved for relaxation: white sand beaches, turquoise water, coconut trees and Bay of Bengal. To the south, discover the incredible capital, Rangoon and its extraordinary pagodas, without forgetting to take the road towards the famous Golden Rock which will amaze you.

You will also discover markets where the profusion of colors rivals that of the most subtle fragrances; you will encounter a mosaic of ethnic groups with always living traditions; the marvelous landscapes of Inle Lake are still the setting of a traditional life, between fishing for fish and floating gardens.
